

Gower College Swansea Bursary Programme

Funding to support excellence in sport

Gower College Swansea encourages all its learners to achieve their full potential. Our Bursary programme aims to assist learners with exceptional ability, in a range of fields, to develop their talents.

A fund is available to provide learners with financial assistance to support the achievement of **excellence in sport**. This could be used to provide assistance towards travel, expertise or equipment costs.

Criteria and Application for Assistance

To apply for financial assistance an application form must be completed and returned to the Sports Co-ordinator (Marc O'Kelly). It should include details of the specific activity, the costs involved as well as details of

- why it will be beneficial to the individual; and
- how it will support the development of their sporting ability.

This will be followed up by an interview with the relevant college staff to establish the applicant's commitment to their sport and the specific needs of the individual e.g. equipment, competition costs, professional guidance, etc.

Learners will be asked to sign an agreement, allowing relevant information to be used for marketing purposes as well as enabling the College to contact learners during and after leaving the College, to discuss being involved in events and activities e.g. college events, talks to current learners, etc.
